President's Message

February 15, 1955

Dear Alumni:

My message this time will be brief but since I shall not enjoy this privilege much longer I do not want to miss the opportunity to thank you for the fine relationship we have enjoyed through the years.

If you could be here this week you would enjoy one major activity just getting under way, namely, razing what existed for about one hundred years - Flocks Brewery. When that is completed and graded for a parking lot our campus will be enlarged and beautified to that extent.

By the way, the contract price for razing the large building is \$15,000. The college is hoping to raise that amount at this time. Some of you no doubt will want to help. Send your check to Mr. Kenneth Himes, College Treasurer. Thank you!

Dr. Chester A. Pennington, pastor of The Church of St. Paul and St. Andrew in New York City, is our leader this week in our Religious Emphasis Week services. The response at this morning's chapel—room and gallery filled and splendid attention—was most encouraging.

Faithfully yours,

JOHN W. LONG, President

Planning For Commencement Week End?

Preliminary plans are underway to make Commencement Week End of 1955 the biggest event to be held at Lycoming for many years. We are hoping that not only the reunion classes are well represented, but all the classes. However, we are continuing our plans, as in former years, by selecting class agents for the reuniting classes, and they in turn will write each class member a letter urging them to be present. This year we have an additional class reuniting - class of 1922. This class was the first to graduate under Dr. Long's leadership as President of the College. It is only fitting that as many as possible from this class be present for this Commencement Week End, as it is the last one under Dr. Long's leadership. Below are listed the reuniting classes and their class agents. We have not been able to secure class agents for those classes where a name is not listed. We invite any member of these classes to write Mr. Lykens if you can act as class agent.

Religious Emphasis Week

Religious Emphasis Week was the center of activity on Lycoming College campus February 15-18th. The objective of Religious Emphasis Week is to relate our personal religion to life. This is done in many ways throughout the college: in lectures, discussion groups, luncheon meetings and in classes every person is given opportunity for an expression of his religious convictions. Of course, Lycoming College affords this opportunity at all times, but during Religious Emphasis Week the entire program of the campus is centered in religion. Dr. Long in his message inaugurating Religious Emphasis Week said, "We here at Lycoming welcome the opportunity through Religious Emphasis Week to explore what religion has to offer and the help it can give us in meeting life's complex situations."

Dr. Chester A. Pennington, pastor of the Church of St. Paul and St. Andrew (Methodist), New York City was guest speaker for the program.

FOOTBALL MEMOS

The schedule for next fall has been completed. We know that many of you will want the schedule so that you will be able to attend games both at home and away. We are pleased to announce a seven game schedule as follows:

October 8—Lincoln University at home (Night game)

He reports that some very excellent players have enrolled in the Freshman class for 1955, but "not nearly enough." Now is the time for you to send to Mr. Bussey the names of players who you know will be interested in attending college next fall. Will you do this today?

WE NEED YOUR HELP

The Placement Bureau is trying to serve our students and alumni in every way open to them. There are many times when companies call upon the bureau for assistance in locating persons for specific work within the company. Quite often our alumni call upon the bureau for help in finding employment with a company in the area of the specific interest. If the bureau is to do an effective piece of work there is some information it must have regarding employers and employees. We are asking you to help us establish through the bureau an avenue in which help can be sought and found. The Placement Bureau would like to know:

1. Can you suggest openings for June graduates.
2. Would you like to register for possible aid in relocation.
3. Do you have a vocational message for students, something about satisfactions, pit falls, job requirements . . .

Let us remember the Placement Bureau is for all of us, to be assisted by each of us. Please direct your correspondence to Mr. Donald G. Remley, Director of the Placement Bureau, Lycoming College, Williamsport, Pa.

Good Basketball Record

The Lycoming College Warriors have been racking up excellent records in basketball this year. Of course, Lycoming fans have become accustomed to this and look forward to good seasons each academic year. We are publishing the record knowing that many of you will want to keep the scores. In the next issue of the **Bulletin** we will round out the season's scores for you. Here is what we have to date—the first score in each case is that for Lycoming: St. Vincent College, 67-58; Westminster College, 78-101; Lebanon Valley College, 83-90; Mansfield State Teachers College, 74-72; Wilkes College, 86-72; Lincoln University, 74-65; Mansfield State Teachers College, 85-71; Susquehanna University, 110-75; Lock Haven State Teachers College, 76-63; Juniata College, 67-82; Wilkes College, 66-80; Juniata College, 62-63; Lock Haven State Teachers College, 82-76; Bloomsburg State Teachers College, 73-90; St. Vincent College, 91-62.

The Warriors will finish the year with a game at Elizabethtown College on March 5th.

LIVING ENDOWMENT

The response to the Living Endowment Fund has been good, but we do look forward to hearing from many more of you. Your gift, in any amount, will help Lycoming College in her total educational task. Please send your contribution today.

REPORT FROM MISSION

Ruth Thompson '53, our May Queen in 1953 landed in Malaya the forepart of January 1954. Ruth is a missionary under the General Board of Missions of The Methodist Church. She is living in Shellabear Hall, a boarding school for 125 Chinese and Indian girls ranging in age from five to eighteen. Ruth will have charge of the school when the present principal comes to America on furlough.

According to Ruth school life in Malaya is much different than what we find in America. She says, "Besides attending school and doing their homework, they launder their own clothes; do their own cooking; houseclean the entire building every Friday; raise chickens, turkeys, pigs, goats, ducks, and guinea pigs; and under the direction of Virginia Bunn, who will also be returning to the States shortly, the girls built a very nice looking outdoor lighted basketball court—and now they are building their own swimming pool, and it's a big one!" We will all agree that this is quite a contrast with our conception of school life as we know here in the States.

Ruth is teaching Bible, shorthand, and typing. There are forty five in her Bible class and twenty eight in each of the others. Shorthand and typing had never been taught before so the girls are quite fascinated by the "curly-kews" of shorthand and the mechanical working of the typewriter.

Ruth's address is Shellabear Hall, 440B Tranquerah Road, Malacca, Malaya. Some of you will want to write to her.

ENROLLMENT

Lycoming College has achieved an increase in enrollment which we are happy to report to you. Our total enrollment in the day classes is 582 students. We have enrolled in the night classes a total of 98 students. Twenty of the night school students are enrolled in the day classes. Fifty-eight new students enrolled in the college for the second semester which began on January 31st. Nursing students from the Williamsport Hospital have completed their work at the college for this year. Nursing students attend college classes for the first semester of the academic year.

Increased enrollments are being reported from colleges throughout the United States. We know you share our satisfaction in knowing that Lycoming College is keeping abreast, and as compared with many colleges, is able to report substantial increases percentage wise in enrollment. You can help us in the recruitment program by sending us names of students you think are qualified for academic work at Lycoming College. Let us keep the enrollment on the increase.

So You Want To Go To College!

(Editor's note: The article below written by our Director of Admissions, will help you in advising prospective students on the steps which should be taken in enrolling at Lycoming. You may want to give the article in its entirety to some interested student.)

So you want to enter college. That is fine, and the procedure is simple when you know what to do.

A brief letter to the dean of admissions will bring you a catalogue and application forms. After studying the catalogue to learn if the course you want is offered, you fill out the application form in ink and mail with the registration fee and a small photograph to the admissions office. Checks are made out to the order of the college.

The high school record form is taken to the principal or guidance officer of your school. He will fill it out and mail it directly to the college. If you make application during your senior year, ask the

CLUB NOTES

We expect to meet all of our Alumni Clubs during the next few months. Plans have been made for several of the spring meetings and from all appearances some of the clubs have planned excellent programs. We will announce to you the dates and meeting places of the various clubs in the next issue of the **Bulletin**. If you live in an area that has not organized a club to date will you get in contact with Mr. Lykens to arrange preliminary steps looking toward the organization of a club. One-half of the alumni of the college live in areas where clubs have been organized within the last year. This is an excellent record, interest is running high and we want to keep it moving along. If you have not attended meetings of the club in your area we invite you to make this a "must" in your schedule.

HARRY WILLIAMS ILL

One of the real joys which comes through serving the college is to be found in the men and women who, day by day and year by year, assume their roles quietly, but diligently. Such a person was to be found in Harry Williams, who for many years served Lycoming College. For most of us Harry was just as much a part of the college as were the buildings, books and schedules. Harry has found it necessary to relinquish his position due to extended illness. Harry, a member of the class of 1930, lives at 606 Park Court, Williamsport, Penna. We thought you may want to send him a card or greeting.

SO YOU WANT TO GO TO COLLEGE!

official to include your rank in your class at the end of the junior year.

If you rank in the upper three-fifths of your class and have taken the prerequisite courses, you will be notified of your acceptance, pending successful completion of the senior year in high school. The admissions office sends for final grades and ranking late in May and receives them from your high school late in June.

Students who rank in the lower two-fifths of their class are required to take a standardized entrance test. This test can be taken at the college free of charge. If you prefer, you can send the name and address of the appropriate high school official who agrees to administer the test to you at your school. The student pays the college a fee of three dollars, two dollars of which is sent to the high school official for his cooperation.

You do not have to wait until you graduate to take the test. The test is not timed, so the applicant can take from one to three hours to complete his answers. Results of the test are promptly mailed to the applicant.

If you are in doubt about the subjects taken in high school meeting the entrance requirements, have a transcript sent to the dean of admissions. He will promptly tell you if there are any deficiencies. You must name the college course you want to study, for entrance requirements vary with different courses.

Letters of recommendation from individuals in your community are in order, though they are not required. The high school sends an evaluation of your work and ability with the transcript.

Incidentally, your race, creed, color, and photograph do not enter into consideration in evaluation of our application. These items are needed for statistical reasons only.

Today the boy or girl who really wants a college education can usually get it. Such a student proves that he wants the advanced education by acquiring a good academic record in high school. An honest desire for learning is as important as the high school grades and frequently more important than the I. Q. rating. More individuals fail in college from lack of interest and a willingness to put studies first than from any other factor.

So you sincerely desire a college education! Then follow the steps suggested and you should have little difficulty in securing admission to college.

Lycoming College will welcome any sincere 'student'.

former Loris Gohl, was a junior grad from Lycoming in 1948, then graduated from Mansfield in 1950, in music education.
